CERTIFIED PRODUCTS COLLECTION

Welcome to the Sustainable Solutions Catalogue, featuring a collection of certified environmentally friendly promotional products and gifts.

Reduce Reuse Recycle

Each product has been chosen for its verified eco-friendly status, not just its appearance. You'll find evidence for every item in this catalogue, showing that the materials used come from various sustainable sources to create the perfect promotional products. We understand the importance of accurately representing your brand and ensuring that the products you invest in come from a genuine recycled and/or organic source. These products are not only promotional items, but help to convey your companies commitments to the environment in a conscious way.

Certifications Explained

Find out more about the certification icons you'll see throughout the catalogue.

Recycled Claimed Standard (RCS)

The Recycled Claim Standard (RCS) is an international, voluntary standard that sets requirements for third-party certification of Recycled input and chain of custody. The goal of the RCS is to increase the use of Recycled materials and uses the chain of custody requirements of the Content Claim Standard (CCS). Look out for these icons throughout this catalogue:

Global Recycled Standard (GRS)

The Global Recycled Standard (GRS) is a voluntary product standard for tracking and verifying the content of recycled materials in a final product. The standard applies to the full supply chain and addresses traceability, environmental principles, social requirements, chemical content and labelling. Look out for this icon throughout this catalogue:

Global Organic Textile Standard (GOTS)

The Global Organic Textile Standard (GOTS) was developed by leading standard setters to define world-wide recognised requirements for organic textiles. From the harvesting of the raw materials, environmentally and socially responsible manufacturing to labelling, textiles certified to GOTS provide a credible assurance to the consumer. Look out for this icon throughout this catalogue:

HELPING UGANDA SCHOOLS

Branded Gifts that Give Back

Promoting environmental and humanitarian change for the better, the Bilby Sports Bottle (page 34) and the Refresh Recycled Ball Pen (page 13) have much to offer. The Bilby bottle is made from GRS certified ocean bound plastic, keeping our oceans free from harmful pollution. The Refresh Recycled Pen is made from GRS certified aluminium and bamboo to give waste material a new life.

In addition to their eco credentials, these products help to provide safe water sources for thousands of impoverished children and their families at direct risk of waterborne illness in Uganda.

20p from every bottle sold and 5p from every pen sold is donated directly to HUGS (reg. charity 1098176) to fund the provision of sanitation, latrines and water catchment facilities so that children don't have to walk long distances.

Ocean Generation x Three Peaks®

The Three Peaks GBR® brand (pages 23 & 24) brings a range of premium and sustainable promotional bags that aim to help make a difference.

Helping to look after the world for future generations, Three Peaks GBR® reuse as many waste plastic bottles as possible in each of their products. Industry leading technology converts the single use plastic PET bottles into Recycled PET (RPET) fabric using environmentally sustainable practices.

Three Peaks GBR® have partnered with 'Ocean Generation' with a shared goal of reducing ocean plastic pollution. For every Three Peaks GBR® product sold, 2% of gross profits go straight to the Ocean Generation cause (Reg. charity 1139848) to help provide education and fulfil ocean restoration projects, to restore a healthy relationship between humanity and the ocean.

The Material Guide

RECYCLED ALUMINIUM (R-ALU)

Aluminium is one of the most recycled and recyclable materials in use today, in fact there is no limit to how many times this sustainable material can be recycled!

Recycling aluminium takes 95% less energy than creating aluminium from raw materials.

RECYCLED STAINLESS STEEL (R-SS)

Recycled stainless steel has an endless lifecycle and is considered an ideal environmental performer as it retains all the strength, durability and corrosion resistance of virgin stainless steel, making it one of the most recycled materials in the world.

R-SS saves up to 74% of the energy to make steel from raw materials.

RECYCLED PET (RPET)

RPET is short for Recycled Polyethylene Tetrphalate, also known as Recycled PET. Due to the thermodynamic qualities of PET, it can be heated up, melted and transformed into new materials over and over making it a great choice for sustainable merchandise.

OCEAN BOUND RPET

Ocean bound plastic is defined as 'plastic waste that has been discarded and at risk of ending up in the ocean', which generates 80% of plastic marine litter. Ocean bound RPET material sets out to reduce this problem by using plastic waste that has been collected from coastal communities where there is no formal waste management infrastructure, to make new products like water bottles, pens and much more, saving it from entering bodies of water and polluting waterways further.

BAMBOO

Bamboo is an earth-friendly solution for high demand products as it can grow up to 3ft per day with very little water and without chemicals. It is also 100% biodegradable and extremely durable.

RECYCLED PAPER & CARD

Paper recycling helps to reduce greenhouse gas emissions, it takes 70% less energy and water to recycle paper than to create new paper products from trees. It also heavily reduces the amount of space taken up by waste paper in landfill.

By choosing a product made from recycled paper you will be helping forest conservation - far less trees are needed when paper is reused.

ORGANIC COTTON

Organic cotton is grown without the use of synthetic pesticides which can be harmful to wildlife, with organic farming creating healthy, water retaining soil with much less water needed to help the crop grow.

RECYCLED COTTON

Recycled cotton fabric uses pre & post-consumer waste of virgin cotton products to reduce the negative impact of traditional cotton farming, in turn reducing water consumption, CO2 emissions and decreases the amount of textile waste that reaches landfill, providing it with a new life.

RECYCLED PU (R-PU)

Recycled PU (Polyurethane) is an environmentally friendly material with a low environmental impact due to its great durability and low melting point. The material is created by breaking down used PU products and turning them in to new products, in our case, notebook covers. The recycling of PU helps to reduce waste to landfill, helping the environmental impact of conventional polyurethane production.

OTHER RECYCLED PLASTICS

Recycled ABS, Recycled PP, Recycled TPE, Recycled PS and Recycled PE are all plastics that have been melted down from post-consumer waste such as keyboards, children's toys, food packaging, housewares and appliances. They are then given a new life as travel mugs, sports bottles, writing instruments, trolley coins, ice scrapers and more.

Klio-Eterna

Est. 1900

“The reuse of raw materials is the focus during production of our recycling pens”

All Klio-Eterna recycled models are completely made of regranulated material which is made from their own overproduction, residues and set-up waste, or responsibly purchased from external suppliers. Doing it this way creates a product made from 100% recycled material, including the housing, clip and the entire mechanism.

Three Peaks GBR® have partnered with 'Ocean Generation' with a shared goal of reducing ocean plastic pollution.

For every Three Peaks GBR® product sold, 2% of gross profits go straight to Ocean Generation cause (Reg. charity 1139848) to help provide education and fulfil ocean restoration projects to restore a healthy relationship between humanity and the ocean.

The introduction of the Three Peaks GBR® brand brings a new range of sustainable, eco-friendly promotional bags.

Helping to look after the world for future generations, Three Peaks GBR® reuse as many waste plastic bottles as possible in each of their products. Industry leading technology converts the single-use plastic bottles into RPET fabric using environmentally sustainable practices.

QB8002

The Bottle That Gives Back

For every Bilby Sports Bottle purchased, 20p goes to HUGS charity to fund the provision of sanitation, latrines and water catchment facilities in Uganda, helping to prevent exposure to waterborne illnesses.

The purchase of 600 bottles will provide 1 STAND PIPE, directly helping 25 people in Uganda's Kosovo slum to access a safe water source.

Terms and Conditions

PRICING. Each product shown in this brochure is priced to include either a single colour personalisation, engraving in one position, doming in one position, embroidery in one position or debossing in one position. Pricing is based on the type of personalisation specified in the catalogue. If more than one colour or one impression is required please contact our sales department for prices.

All prices are correct at time of publication and are exclusive of set-up and carriage. We reserve the right to amend the prices at any time.

ORIGINATION. All printed orders require a screen, template, data sorting and set-up. Please contact our sales office for price details.

COLOURS. Every effort is made to match your colour requests, but due to the printing process used and the nature of the inks, we cannot accept liability for colour variation if no sample proofs are requested.

SAMPLE PROOFS. All sample proofs are charged at our standard rate. Please contact our sales office for details.

QUANTITIES. As per normal practice, items may be subject to 10% under or over quantities ordered.

ILLUSTRATED PRODUCTS. Due to the printing process/variations in monitors, the colour of the actual items may differ slightly from the items illustrated. If you would like to see a sample of any products please contact our sales office.

CANCELLATION. Cancellations may incur administration charges depending on the status of the order at the time of cancellation.

V.A.T. All prices are subject to V.A.T at the current rate.
